

The Market for Calibration of Test and Measurement Equipment Strategies, Trends and Forecasts 2010 - 2014

If your organization provides calibration services, or is considering it, this report will help you maximize the benefits of participation in the industry

- Lower costs
- Price and package services strategically
- Understand best practices
- Position your organization and offering
- Forecast demand

Where are the opportunities?

Where are the pitfalls?

How big is the market?

Is the market maturing?

What industries are most attractive?

What about mobile operations?

Find out in this detailed market forecast of the market for calibration of test and measurement equipment. Buyers of the report are eligible to purchase a separate global forecast of specific calibration services that are relevant to them. Get hard facts and expert insight from this comprehensive report.

A research report on the calibration services industry is now available from The Signal Group. This report provides detailed information and analysis of the market as well as a complete survey of current, and forecast, practices and policies.
There are many important changes sweeping the industry in the next five years.

Find out how your organization can benefit.

The Market for Calibration of Test and Measurement Equipment

Strategies, Trends and Forecasts 2010 - 2014

TABLE OF CONTENTS

1. Introduction and Market Definition
 2. Market Overview
 - 2.1 Manufacturer practices
 - 2.2 Services pricing and plans
 - 2.3 Segments and capability
 - 2.4 Industry structure and participants
 - 2.5 Geographic influences
 3. Market Trends
 - 3.1 Factors driving growth
 - 3.2 Factors limiting growth
 - 3.3 The changing role of the manufacturer
 - 3.4 Services packaging
 - 3.5 Technology development
 4. Industry Segmentation Analysis
 - 4.1 Aerospace/defense
 - 4.2 Agriculture and food production
 - 4.3 Automotive
 - 4.4 Biomedical and Pharmaceutical
 - 4.5 Communication
 - 4.6 General Manufacturing
 - 4.7 High Technology
 - 4.8 Material Production
 - 4.9 Other
 5. Market Size and Forecasts
 - 5.1 North America
 - 5.2 United Kingdom
 - 5.3 Continental Europe including Russia
 - 5.4 Japan, China and Korea
 - 5.5 Australia and New Zealand
 - 5.6 Africa and West Asia
 - 5.7 Central and South America
 6. Calibration Industry Development
 - 6.1 Automation
 - 6.2 Promotion
 - 6.3 Customer Service
 - 6.4 Merger and acquisition
 - 6.5 Competition
- Appendices
- I. Methodology
 - II. Major Metropolitan Markets - Industry Concentration

“I recommend it as a planning tool for any organization that provides calibration services.”

Dr. Malcolm Smith
Board Member NACLA, Committee Chair NCSLI

REPORT FACTS:

- Available immediately as an electronic transmission PDF.
- Licensing is Personal or Corporate. The Corporate version permits unlimited distribution within your legal organization. The complete report is 109 pages.
- Forecasts of a particular test or market segment can be ordered with any version of the complete report at additional cost. The specific test price is in addition to the main report cost and is ordered as an option for purchasers of a version of the primary report.
- Pricing (US\$):

Version	Personal	Corporate
Complete report	\$1,395	\$2,595
